

## COBS Bread Allergen Statement

We are committed to providing our customers with the most current ingredient, nutritional, and allergen information related to our products. Bakery operations may result in goods sharing common preparation stations, baking, and/or merchandising areas. The shared use of equipment (preparation table, ovens, etc.) and baking tools may also occur. For customers with food allergies, our products may come into contact with allergens of concern.

We recommend that customers with dietary needs, including food allergies, consult their healthcare provider. COBS Bread, its Franchisee's and employees do not assume responsibility for any allergy or sensitivity to any food provided in our restaurants.

Please see specific ingredient information for our standard product offerings on our website or in bakery. Should you have any questions, please contact us at [www.cobsbread.com/contact/](http://www.cobsbread.com/contact/).
